### **TREASURER'S REPORT**

**Moved:** Dick Ruse                    **Seconded:** Beth Berridge

### **GENERAL BUSINESS:**

#### **Parkside Development**

Beth Berridge advised the meeting that the Parkside Holiday Park was expected to generate an estimated 473 vehicle movements per day. This can be expected to generate traffic problems, problems with parking with King's Jetty, and will endanger public safety due to the lack of footpaths, cycleways. The road will need to be upgraded.

Barry Breares supported the need for a footpath/cycleway to improve safety and the need for a slip lane for north going vehicles turning across the path of the south going traffic to turn into the park.

Kylie Wright - The project has been approved, majority of councillors felt that the approval process needed to be completed without reference to any need for roadworks.

Janette Drew & Gary Farrant : Asked for the time frame for the development Barry Breares responded with the details of the first stage

Buck Emberg: The road will not be able to be extended toward the bay side due to bank collapse

Paul Wright: Said that we should emphasise that we were not opposed to the caravan park per se.

Motion: Beth & others we are incensed/ not considered/ignored/dissapointed/let down thought we we were partners/had a good relationship with the council. Residents of the point who will be adversely affected by the traffic were not informed of the development.

Move Beth second Barry Breares Send to BOD admin.

Motion: Peter Werner: We need to write to all the councillors who voted in favour of the development asking how they intend to address public safety and traffic issues 2nd Gary Farant

We need to serve the people not the developers.

BBQ Progress:

Gary Farant asked how progress was with the BBQ.

Peter Werner: Jake has advised that all items have been ordered and that it should be completed by the end of May - June at the latest.
